

TULSA CARAVAN READY TO START

Begin Journey to Albert
Pike Convention Early
Tuesday Morning

MAKE TRIP BY AUTOS

Stops at Oilton and Still-
water Only Two That
Are Scheduled

As a rendezvous for motorists bound for the sixth annual convention of the Albert Pike Highway association in Enid, President Cyrus Avery has named Hotel Tulsa and has requested that Tulsa and Stillwater be scheduled for stops at the hotel promptly at 8 o'clock in the morning, when the start will be made.

Among those already "signed up" to go from here are 12 representatives of the Chamber of Commerce, Avery, E. Bee Guthrie who is highway association secretary, W. L. Jeffords of Chelsea who is president of the Northern Oklahoma chamber of commerce, and Mrs. Jeffords, Ray Gill and C. A. Darland of the Fort Smith chamber of commerce, George A. Callahan and R. A. Jones and J. E. Reynolds of Leonard. The Tulsa caravan will gain recruits en route. The two stops scheduled are at Oilton, where eight cars will swing into the procession at the property made Monday by E. K. Frank of the Oilton Albert Pike Highway club while in Tulsa is fulfilled, and at Stillwater at noon.

In Session Two Days
The convention will be in session Thursday and Friday, convening Thursday morning, at which session responses of welcome will be made in behalf of Colorado by Charles E. Thomas of Colorado Springs and for Arkansas by George A. Callahan of Hot Springs and for Oklahoma by Clarence B. Douglas of Tulsa, the president will make his annual address and the secretary his report, and J. A. Whitehurst, president of the Postal Highway association, will speak on "Accomplishments of Highway Associations."

At the Thursday afternoon meeting H. E. Clark, Oklahoma state highway commissioner, will speak on "How Shall We Maintain Our Highways," Ernest S. Alderman, state highway engineer, on "The Seven Per Cent System Under the New Federal Highway Act," R. A. Singletary of the road department of the Oklahoma City member of congress on "Suggestions for Highway Legislation in Oklahoma," and R. L. Thompson of the Arkansas state highway commission on "What We Are Doing in Arkansas."

Among the speakers Friday will be A. H. Losh, acting district engineer for the Sixth federal district, U. S. bureau of public roads, who will discuss the work of this organization in relation to the states. John R. Woodruff, president of the Springfield, Mo., chamber of commerce, who will speak on "Highways of the Ozarks," and C. A. Darland whose theme will be "The Million-Dollar Bridge at Fort Smith."

SCORE OF TOWNS IN CENTRAL WEST TORNADO-SWEPT

CONTINUED FROM PAGE ONE.
ing when a tornado swept the northern part of Madison county.

The storm struck Alexandria, Oriskany and Summitville and was a part of the tornado that cut a wide path across Indiana late today.

Later reports placed the death toll in Madison county at six. The known dead are: Charles Ludlow and David Hughes, farmers living north of Alexandria.

SEVERAL ARKANSAS TOWNS
ARE HIT BY TWISTERS.
FORT SMITH, April 17.—According to tonight, a tornado struck several towns in western Arkansas at 11 o'clock Saturday night, causing property damage estimated at \$100,000 to \$150,000. All wire communication with points in the storm area is severed and reports are slow in coming in.

Towns hit by the twister include Altus, Ozark, Clarksville and Mantou. The latter in reports are completely razed. No loss of life is reported.

JOPLIN, Mo., April 17.—A hail storm followed by a cloudburst struck Monett, Mo., and territory surrounding that town late yesterday afternoon, doing damage which was estimated today at \$50,000.

The cloudburst flooded a small stream that runs through the town and in a short time water was standing in many homes and business establishments.

A washout occurred on the Frisco railroad between Monett and Pierce City. Service will not be brought

to normal until tomorrow, it was reported.

CENTRALIA, Ill., April 17.—Four persons were killed and approximately 30 injured when a cyclone struck the little town of Irvington, five miles south of here early today. About half the town was destroyed.

The dead are:
E. B. Baldridge, 40; the infant of Charles Anderson; Mrs. Charles Little, 50; Valentine Schuster, 50.
A frantic search for the family of Harvey Winesberger, who was missing, was on foot when Winesberger, his wife and two daughters were found at a neighbor's home.

Three Others May Die.
Three of the injured are in hospital here and are said to be in serious condition.

Relief work is hampered by the almost impassable condition of the roads. The Marion county Red Cross and all the available doctors here are at work in Irvington.

DECATUR, Ill., April 17.—Unconfirmed reports from Decatur, Ill., April 17.—One man was killed and another fatally injured by a cyclone which struck in the vicinity of Rose Hill, a village seven miles north, at 2:15 o'clock this morning. A large property damage was done.

MARSHALL, Ill., April 17.—Six persons were injured, two seriously and from 15 to 20 houses and barns were swept away in the path of the cyclone which swept eastern Illinois and parts of Indiana today.

PEORIA, Ill., April 17.—A slanting rain storm, accompanied by a 40-mile gale, broke over the flood-swept Illinois river valley district tonight evening and started the streams on a freshet.
Summer cottages and manufacturing plants along the river were inundated. Cabin boats were tossed by their moorings into the high waters. Farm homes, for miles around were partly submerged. Two hundred feet of the upper bridge at Peoria and the Rock Island tracks near Moxleyville was washed away.

Huge forces of workers labored energetically to alleviate the situation.

The river registered 24.7 feet at 10 a. m., having risen a foot overnight.

Flood Crest Passed.
It was believed yesterday the flood crest had been reached. In East Peoria, where workmen were trying to save the levee by dumping bags of sand and rock ballast practically every family has vacated their homes. They are living in tents provided by the state and in public buildings.

NASHVILLE, Ill., April 17.—This town is without its electrical supply today as a result of the cyclone which struck here last night, demolishing the power plant and one residence. No one was hurt.

WILLIAMSPORT, Ind., April 17.—One man was killed when his home was blown away by a near-cyclone which struck here last night, leaving a trail of unroofed houses in its wake. He was John Hasty, farm tenant who was trapped when the storm tore his house from the foundation and demolished it.

Charles Dick, of Judyville, had a narrow escape when his light coupe went through a bridge over Flooded Rock creek, near West Lebanon, and landed in five feet of water during the storm. Dick broke a window in the car and crawled to the top where he perched two hours in a vain hope of aid reaching him. Finally he grabbed a floating log and drifted to shore.

WESTGATE HAS A SPLENDID RECORD

So Declares Gustafson After
Making Thorough
Investigation

L. A. Westgate, detective, whose assassination was attempted in room 502, Hotel Tulsa, Friday night, and who is now confined in a local hospital because of a shattered elbow through which a bullet passed, has an extremely favorable record, according to John A. Gustafson, head of the detective agency that employed him in obtaining evidence against occupants of room 502, which adjoins 503.

Employed Mr. Westgate because he had a good record, and because he is a good mixer," Gustafson advised. "The fact that he carried on his investigation without arousing suspicion on the part of any of the interested persons shows he was able to take care of himself in this work."

Mr. Westgate never worked in a smelter; he never took a correspondence course in detective work, as has been reported; he has never been in any trouble and stands well in his home town. Had there been any question concerning his reputation he never would have held a high position in the Knights of Pythias order.

"I have investigated his record thoroughly and here is what I found."
"He came to Blackwell, Okla., from Mendota, Ill., in 1904, just after finishing school. On arrival in Blackwell the Westgate family moved to a farm a short distance from town, where they remained for a year. Then they moved into Blackwell."

Mr. Westgate spent a term in the Oklahoma State Reformatory in Blackwell, taking a course in shorthand and typewriting. In 1909 he went to work in the post office as mail carrier, and held this position until December, 1918. "During the war, and while employed as mail carrier, Mr. Westgate did a great deal of special work for the exemption board under the jurisdiction of the department of justice, and in this work prepared numerous reports for the government."

"During the year 1919 he operated the Madison Brokerage company, dealing in oil and gas leases. Early in 1920 business became dull and the company was discontinued. Later Westgate worked for the Globe Refining company. In June of the same year he was appointed deputy grand chancellor of the Knights of Pythias of Oklahoma by James Bowen of Tulsa, who was grand chancellor. Mr. Westgate continued actively as a deputy in this order until May, 1921. He has devoted much time to the order since then and still holds his commission as deputy."

"Since May, 1921, Mr. Westgate has put in most of his time in connection with the O. K. Auto Supply company of Blackwell, which company manufactures automobile oils and polish. He owns most of the stock in this company and is its active manager."

Whether Westgate's left arm will be saved will be determined by its condition in another week. This information was given out by Dr. R. D. Ireland, prominent Kansas City surgeon and nerve specialist who was brought here by the Gustafson

Detective agency for a consultation with local surgeons.
According to Dr. Ireland, even if the arm is not amputated, Westgate will not be able to use it for two years.

Westgate was shot by one of two assassins who ambushed him in his own room. One was a tall man and the other much shorter.

**Invite Associations
To Tell Why They Are
Entitled to Existence**

What it is, what it does, what is the reason for its existence, are some of the questions which the City club wants representatives of different local organizations to answer at club luncheons, as a part of the club's desire to familiarize its members with its home city. This Saturday, for instance, the heads of the Salvation Army, Red Cross and Tulsa county Humane society will each have an opportunity to present a 15-minute summary of their work.

Next week it will probably be arranged for representatives of the ministerial alliance, the Tulsa county Bar association and the Tulsa county medical society to tell all about their respective organizations in 15 minutes time.

Recently the club heard about the missions of Oklahoma and more recently about Oklahoma minerals. For the present the club will concentrate their attention upon things made in Tulsa and made in Oklahoma. John R. Hadley, president said Monday.

MASONIC CLASS AT GUTHRIE

Largest Number Since War Gathers
To Take Higher Degrees.

GUTHRIE, April 17.—One of the largest classes in Scottish Rite Masonry since the close of the war is assembled here to take the higher degrees in Oklahoma consistory. Thirty-one and sixty-five candidates had registered when the annual spring reunion opened this evening. The number is expected to reach 400 tomorrow. Perry Freeman, 33, past deputy inspector general, is in attendance, and many other of Oklahoma's most prominent Scottish Rite Masons are present.

The program this week includes a number of entertainment features and work will be conferred from the fourth to the thirty-second degree.

**Some staggering constipation facts;
Know how Kellogg's Bran can help you!**

Ninety out of every one hundred people suffer with constipation! Constipation is the direct cause of weak, nervous, and ailing, lowered vitality, and ninety per cent of illness!

Do you realize that nearly every case of constipation is traceable to neglect in answering nature's call?

In a few years the sufferer has "latent constipation"—the most dangerous form of all. Toxic poisons accumulate, the intestinal walls, polluting the blood, which in turn poisons and affects every organ in the body. Nourish every case of diabetes and Bright's disease can be traced to constipation or latent constipation, as can most rheumatism, headache, brain fog, hardening of arteries and other organic diseases.

Pills and cathartics can never afford you permanent relief. What you need is nature's most wonderful roughage—
BRAN—Kellogg's Bran, cooked and krumbed—and delicious in flavor and edibility! Bran will permanently relieve constipation when taken regularly—at least two table-spoonfuls daily; in severe cases, with every meal. Your doctor will endorse Kellogg's Bran for constipation!

Kellogg's Bran sweeps, cleans and purifies the eliminative tract as nothing else can—and, being a nature food, it creates no habit. Bran's work is a revelation!

Serve Kellogg's Bran to the entire family as a cereal, with other cereals or in countless appetizing ways such as in muffins, pancakes, raisin bread, etc. Recipes on every package.

All grocers sell Kellogg's Bran, cooked and krumbed.

P. S.—Kellogg's Bran, eaten regularly, will clear up a pimply complexion.

ARMY MEN HOLD MASKED BALL

Was Such a Success
That It Will Become
Annual Affair

The first annual masquerade ball of the national guards encamped here was given at the armory Monday night. It was estimated that fully 100 couples were in attendance, wearing the masquerade costumes of every color and description. There was Martha Washington, the big Indian chief, the long-eared donkey who walked on two legs, and many others of like description. All officers were attired in full dress uniform.

The big ball ended day that had been spent in entertaining the distinguished army visitors in attendance here from all parts of the state. Ten officers and six enlisted men from Fort Sill arrived at 3 o'clock Monday afternoon in 11 airplanes. They were met at the Curtis aviation field by Maj. Charles W. Daley, Capt. John W. McCune, Maj. Byron Kirkpatrick, Lieut. Ray A. Mosier of Tulsa and were conducted in autos to the Tulsa and Ketchikan hotels.

Taken on Tour of City.
Later in the afternoon they were taken on a tour of the city. At 7 o'clock Monday evening the officers were tendered a dinner in Ed Woods' cafe.

At 8:30 o'clock the ball at the armory, sixth street and Wheeling avenue, was given, lasting until the midnight hour. All members of the national guard, representatives of the American Legion and enlisted men attended the dance, together with their wives, sweethearts, mothers and sisters in masquerade costumes.

So successful was Monday's entertainment and ball that the national guards are going to make the ball and day's celebration an annual affair hereafter.

Fireman Killed in Wreck.
ST. LOUIS, April 17.—Three firemen were killed and a street car motorman was seriously injured, while three occupants of an automobile narrowly escaped death in a triple smashup here tonight when a fire truck hit the automobile and swept it into the path of a street car.

MUNICIPAL LAW NEEDS CHANGES

Peters Advises Kiwanians
to Take Interest in
City Government

With its representative membership of more than one hundred, the Kiwanis club is better qualified to conduct the affairs of city government than the city administration, Charles B. Peters, Kiwanian and president of the Chamber of Commerce, told the club at Hotel Tulsa Monday noon. Peters urged the club to take a more active interest in municipal affairs, suggesting that a committee be appointed to represent its membership before the city officials.

Several important changes are needed in city laws, Peters pointed out, principally those which will protect the heavy investor and property owner.

"A man told me the other day that an apartment house is to be built across the street from the home I recently purchased for \$250,000," he explained. "Now, I wouldn't give \$5 to prevent that man from building the apartment house. If he owns the lot, it is his privilege to build there whatever he wants. But there might be some question as to the advisability of building apartment houses in such sections."

N. G. Heathorne, retiring president of the park board, introduced and extended congratulations to his successor, Leslie L. Boyle, who has been appointed to head the park board by the Newblock administration.

WEALTHY MERCHANT SHOT.

Brother-in-Law Then Turns Gun on Himself—Old Dispute the Cause.
DUNCAN, April 17.—John T. Miller, wealthy merchant and stockman of Alma, a small town, 28 miles east of here, was shot and instantly killed at home here early today. His brother-in-law named Turner, then turned the pistol on himself and is thought to be fatally wounded. Domestic trouble of long standing is said by friends to have precipitated the shooting.

OLD CLOTHES NEEDED

Near East Relief Has Designated
Saturday as "Bundle Day" When
Collections Will be Made.

If you are religiously observing cleanup week by vigorous activity in clothes closets and attic, don't disdainfully cast worn clothes and old shoes into the incinerator, for such articles can be used in Near East relief. Clothes are almost as scarce as food in Armenia. It was stated Monday at the local Near East relief headquarters at 227 South Boston, and coats, sweaters, a carload of clothing.

stockings, shoes, sheets for bandages, and in fact almost everything in the line of clothing will be welcome with the exception of evening clothes, silks or laces.

Clothing for orphans in Armenia and southern Russia will be collected on "bundle day," Saturday, April 22. The Near East relief organization requests that bundles be left on front porches or brought to the headquarters. Boy Scouts, volunteer motorists and men and women working in different districts under Mrs. W. M. Bottom as general chairman, will gather up the bundles. The goal is South Boston, and coats, sweaters, a carload of clothing.

When old friends call, it is indeed a pleasure to have a really high-class instrument, such as the Brunswick, for their entertainment.

The Brunswick will give an additional touch of good taste and refinement to your home furnishings and prove a source of real pleasure to every member of the family.

**The Joys
That white teeth bring**

Millions of people have found them out in this delightful way. This is to urge that you do so—and now.

Combat the film

Your teeth are coated with a viscous film. It clings to teeth, enters crevices and stays. That film absorbs stains, making the teeth look dingy. Film is the basis of tartar. Teeth that should glisten—millions of them—are kept clouded by that film.

That film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. It constantly breeds germs, and they, with tartar, are the chief cause of pyorrhea.

Nearly all tooth troubles are thus traced to film. And, under old brushing methods, those troubles have been constantly increasing.

Ways to end it

Ordinary tooth pastes do not effectively fight film. So well-brushed teeth, as most folks know, discolor and decay.

So dental science has in late years sought effective film combatants. Two have now been found.

Pepsodent
REG. U. S. PAT. OFF.
The New-Day Dentifrice

A scientific film combatant, combined with two other modern requisites. Now advised for daily use by leading dentists everywhere. Supplied by druggists in large tubes.

**10 Days
Free**

We supply this test to every home that asks. Simply mail the coupon.

You will never forget the delightful effects, or ever desire to lose them.

Both are embodied in a new-day tooth paste—called Pepsodent—for twice-daily application.

Able authorities have proved its efficiency. Now leading dentists, almost the world over, are advising its adoption.

Five new effects

Pepsodent combats that film with every application. It keeps teeth highly polished, so film less easily adheres.

It multiplies, also, the salivary flow—Nature's great tooth-protecting agent. It multiplies the starch digestant in saliva, to digest starch deposits that cling. It multiplies the alkalinity of the saliva, to neutralize the acids which cause tooth decay.

Twice daily it brings these five desired effects. And modern authorities say the tooth paste should bring them.

Watch these effects and judge them for yourself. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

Judge by the benefits you feel. Judge by what your mirror shows. Then decide if you should join the millions who now clean teeth in this way.

Cut out the coupon now.
